Muhamad Azriel Akbar

Perumahan Villa Indah Permai
Blok H32/16, Bekasi Utara.

PROFILE

A highly curious and enthusiastic Mobile Developer with 5 years of experience, constantly exploring new technologies and methodologies. I specialize in creating mobile applications tailored to client needs, while also bringing background in IT infrastructure management. I'm passionate about learning new skills and am able to quickly adapt and master new technologies.

In addition to mobile development, I have experience in managing software licenses and designing flow diagrams to ensure seamless system integration. My dual expertise in mobile development and IT infrastructure allows me to deliver efficient, reliable, and scalable solutions that meet both user and organizational requirements.

DETAILS

- Developed more than 3 applications using Java Android and Kotlin and Flutter resulting in improved user interface efficiency, which allows users to enjoy a more comfortable experience compared to previous versions.
- Skills and competencies: Java Android, Java, Kotlin, Retrofit, MVP, MVVM, Dart, BLoC, Repository, Provider, State Management, RxAndroid, SQLite, SQLLite, Laravel Framework Code Igniter Framework, Postman, Android Studio, Git, Gitlab, Scrum Agile.
- Lead 2 Division IT Development and IT Support/Helpdesk.
- Worked in an administrative role, responsible for organizing and maintaining daily, weekly, and monthly reports using Microsoft Office and Excel. Also capable of creating basic Excel features using VB.
- Captured aerial footage using drones and edited videos using Adobe Premiere Pro, Adobe After Effects, and CapCut. Edited and designed visual content using Canva and Figma.
- Supported the QA team in releasing new versions of the application, also addressed and resolved issues reported by users.
